

# REALTIME MENTORING AND CONSULTANCY

"THE INDISPENSABLE FIRST STEP TO GETTING THE THINGS YOU WANT OUT OF LIFE IS THIS:

**“decide what you want.”**

**- Ben Stein**

Thank you for your enquiry about **Realtime Mentoring and Consultancy**. You have probably already read the books, been to seminars, and perhaps been on courses or even had mentoring before.

How much you retain from all these sources is partly dependent on when you **actually implement** the knowledge, but it's also a well known fact that even the most intelligent amongst us will forget quite a high percentage of what we hear.

You might have already invested in property and are looking to expand your portfolio and/or have decided to move into commercial property.

Perhaps you're still trying to climb onto the first rung of the ladder. Whatever stage you're at there is always something new to learn or some gap in your knowledge especially in today's fast changing and challenging marketplace.

**We all want to go forward but sometimes something is missing...**

My mentoring is unique in that each session is tailored to your exact requirements. Sessions can be face to face, by telephone or via skype or email it's entirely up to you.

You decide how many sessions you need and how frequently it may be that you just need one session to tackle something specific, or you may want an ongoing 'hand holding' relationship.

**So what exactly can you achieve from mentoring?**

**Strategy:** We will discuss the different strategies that are open to you and which way you want to go.

We will argue (yes argue) with you until you convince both us and yourself that you are going in the right direction.

**Forward Planning:** We discuss your plans for the next month/year/decade etc.

We help you to critique them and to come to a logical conclusion :

- 1. Are they really what you want to achieve?**
- 2. Are they realistic?**
- 3. Is there room for improvement?**

**Tools:** These relate directly as you as an individual. You have to be certain that the strategies and plans that you have discussed with us are correct for you. Here we give you the tools to examine and test out your suppositions.

**Implementation:** We oversee implementation of your actions and make sure your theory becomes practice.

**Resources:** At present you are using your own resources. Some of these will probably be good, some perhaps could be better!

We give you the option to improve your game and can direct you to some more interesting alternatives.

Creating **SUCCESS** is the key and resources are an important part of that process.

**In conclusion,** we are here to make sure that your efforts and plans are rewarded and turned into reality.

**To make an appointment** just email me at [info@barrydanser.com](mailto:info@barrydanser.com) with your name and telephone no and some brief details of what you're looking to achieve and i'll contact you with more information.

I look forward to hearing from you and demonstrating how together we can achieve your goals this year.

**Barry Danser**
